Power Outage Tips

Conserve water. The park has a limited amount of water in a storage tank. This water comes to our homes by gravity. However, once we empty the tank electricity is required to refill the tank.

To conserve body heat, everyone should wear layers of clothing and a hat, and use blankets to keep warm. Moving around and staying active will also help to warm you up.

Carbon Monoxide and Power Outages

If you lose power during the colder months, you may be tempted to use an unsafe heating source in your house. This should never be done as it is not only a fire hazard but can cause carbon monoxide poisoning which can be fatal.

Use flash lights in the dark, not candles.

Keep refrigerator and freezer doors closed as much as possible. An unopened refrigerator will keep foods cold for about 4 hours. A full freezer will keep the temperature for about 48 hours (24 hours if it is half full) if the door remains closed.

Freeze Protection Time

It's time to wrap outside pipes to prevent freezing. Disconnect and drain hoses. Turn off outside water.

Prescription Drug Disposal

In order to provide a secure, confidential and environmentally safe way to dispose of unwanted prescription drugs, we have a collection container at the Madrone Hill office. Unwanted prescriptions can be brought to the office. We will take them to the police department for disposal. Prescriptions may be in the original packaging. Packages and personal information are incinerated by the police. They will not accept liquids, syringes or inhalers. Please call the office with any questions.

Notary Services

Notary services are now available at the office. Standard notarial fees apply.
